⊞ Revision history

Revision 2: References to Safety Guide

The Operator's Manual and the Safety Guide are separate documents. Therefore, references from the Operator's Manual to the Safety Guide are inactive hyperlinks in the Operator's Manual.

What is new in publication version 5.6?

This section contains several inactive hyperlinks.

For more information, refer to the following sections in the Safety Guide, V5.6:

- Warning messages > Electrical safety > Immediate action in an emergency situation
- Warning messages > Flammable material > Flammable refrigerant
- Product safety labels > List of product safety labels
- Product safety labels > Product safety labels on the **c** 702 module
- Product safety labels > Product safety labels on the **c** 701 module
- Product safety labels > Product safety labels on the **e** 801 module

What is new in publication version 5.5?

This section contains an inactive hyperlink.

For more information, refer to the following section in the Safety Guide, V5.6:

- Safety precautions > Protection of personal data and software security

Revision 3: Language packs and current software

The introduction to the *List of other accessories and consumables* has been revised to indicate where to find labeling information about language packs and the current software version.

In this section

List of other accessories and consumables (7)

List of other accessories and consumables

Information on globally available accessories, consumables, the current system software, and language pack versions can be found under eLabDoc on the Roche DiaLog website:
