Table of contents

About the addendum content.....4

Revisions to COBAS® AmpliPrep Instrument publications.....5

 Revision 1: Addition of RoHS directive and update of CE compliance.....5

 Revision 2: Addition of information about a fluorinated greenhouse gas6

 Revision 3: Addition of print quality details for barcodes.....7

About the addendum content

Roche recommends that you familiarize yourself with the new and/or revised content provided in this addendum.

The following illustration explains how this content is presented in this document.

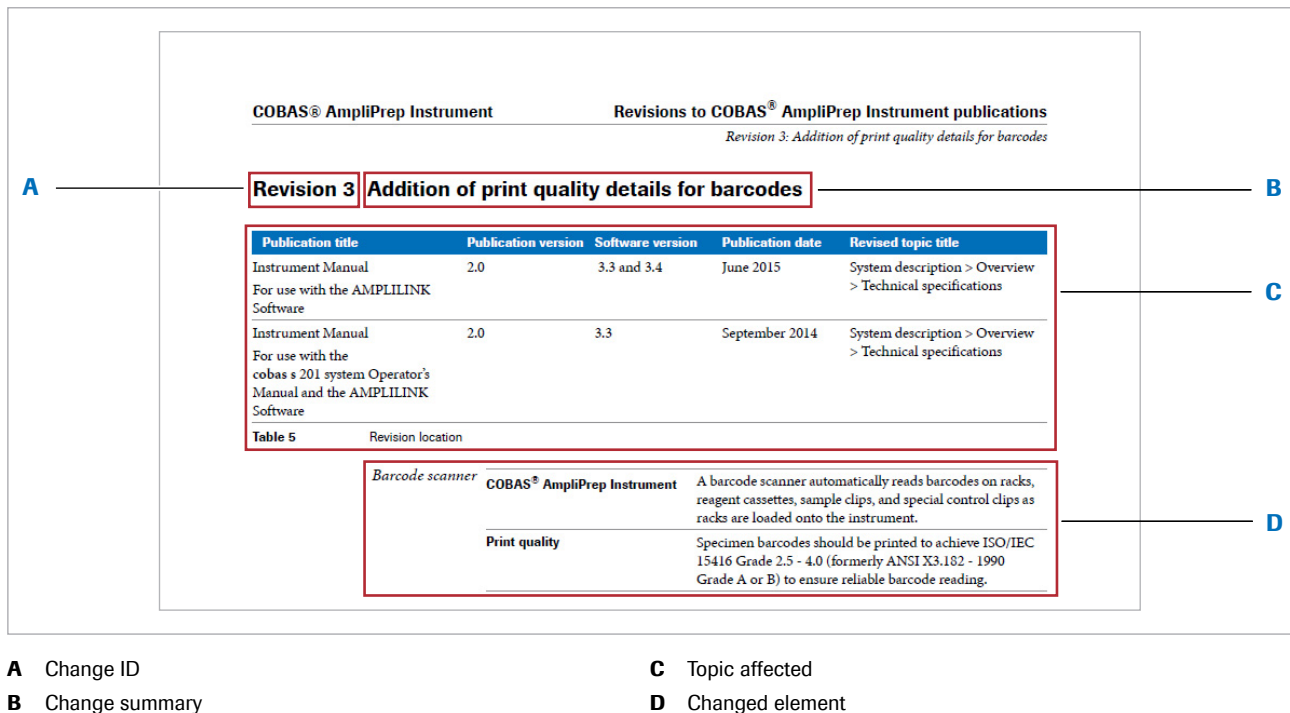

Figure 1 Structure of a revision

☞ If you print these pages, Roche recommends printing them single-sided. In this way, you can easily insert the new and/or revised content in its appropriate location(s) in the existing document.

Revisions to COBAS® AmpliPrep Instrument publications

Revision 1: Addition of RoHS directive and update of CE compliance

Publication title	Publication version	Software version	Publication date	Revised topic title
Instrument Manual For use with the AMPLILINK Software	2.0	3.3 and 3.4	June 2015	Publication information
Instrument Manual For use with the cobas s 201 system Operator's Manual and the AMPLILINK Software	2.0	3.3	September 2014	Publication information

Table 2 Revision location

Approvals The COBAS® AmpliPrep Instrument meets the requirements laid down in:

Directive 98/79/EC of the European Parliament and of the Council of 27 October 1998 on in vitro diagnostic medical devices.

Directive 2011/65/EU of the European Parliament and of the Council of 8 June 2011 on the restriction of the use of certain hazardous substances in electrical and electronic equipment.

Compliance is provided by means of the Declaration of Conformity.

The following marks demonstrate compliance:

For *in vitro* diagnostic use.

Complies with the provisions of the applicable EU directives.

Issued by Underwriters Laboratories, Inc. (UL) for Canada and the US.

Revision 2: Addition of information about a fluorinated greenhouse gas

Publication title	Publication version	Software version	Publication date	Revised topic title
Instrument Manual For use with the AMPLILINK Software	2.0	3.3 and 3.4	June 2015	Publication information

Table 3 Revision location

Fluorinated greenhouse gas The product contains a fluorinated greenhouse gas in the hermetically sealed refrigeration.

Type	Charge weight (kg)	CO ₂ equivalent (tonne)	Global warming potential
R134a	0.200	0.286	1430

Table 4 Fluorinated greenhouse gas detail

Revision 3: Addition of print quality details for barcodes

Publication title	Publication version	Software version	Publication date	Revised topic title
Instrument Manual For use with the AMPLILINK Software	2.0	3.3 and 3.4	June 2015	System description > Overview > Technical specifications
Instrument Manual For use with the cobas s 201 system Operator's Manual and the AMPLILINK Software	2.0	3.3	September 2014	System description > Overview > Technical specifications

Table 5 Revision location

Barcode scanner

COBAS® AmpliPrep Instrument	A barcode scanner automatically reads barcodes on racks, reagent cassettes, sample clips, and special control clips as racks are loaded onto the instrument.
Print quality	Specimen barcodes should be printed to achieve ISO/IEC 15416 Grade 2.5 - 4.0 (formerly ANSI X3.182 - 1990 Grade A or B) to ensure reliable barcode reading.
